

# ALL-FILL

## SERIES

# 5

# MINI-FILLER

*The AFI Series 5 Mini-Filler shares the design principles of the Series 10 Volumetric filler. It is a full function vertical auger filler, only smaller for bench-top use.*

*Shown here in table-top form, the Mini-Filler's compact design also makes it ideal for production line applications where space is at a premium.*

## OPTIONS

- *Choice of auto hopper feeds or manual loading*
- *Product contact parts in 316L stainless steel*
- *Variable speed agitation*

## FEATURES

- *Compact design*
- *Table-top and automatic configurations*
- *Variable speed flux vector inverter auger drive*
- *Stainless steel contact parts and externals*
- *Quick-release tool-free auger and hopper removal*
- *Touch-screen control*
